

Melbourne and Ultimo Study Centres

2026 International Course Guide

UNIVERSITY of
TASMANIA 

Your journey starts here

At our Melbourne and Ultimo Study Centres, international students are more than just learners; they are part of a vibrant, supportive and globally connected community. From personalised academic support to career-focused programs and wellbeing initiatives, we are committed to helping every student thrive in and beyond the classroom. Partnering with international education services provider ECA (Education Centre of Australia), we will put you alongside community and industry as you enjoy a world-class student experience.

Prime city locations

Study in the heart of two of Australia's most dynamic cities — Melbourne and Sydney. Enjoy unbeatable access to public transport, industry networks, cultural landmarks and lifestyle experiences.

Wide range of courses

Choose from a diverse portfolio of courses across business, information technology, health management, and more. Our courses are designed with real-world relevance and practical outcomes in mind.

Generous scholarships

We offer a range of merit-based and early acceptance scholarships to support your academic journey. These scholarships are designed to reduce financial pressure and reward student potential.

Employability outcomes

Graduate with more than a degree — gain skills that employers value. Our strong industry connections and work-integrated learning opportunities help students step confidently into the job market.

Student support and experience

From orientation to graduation, our dedicated student services team is here to support you. Whether it's academic help, wellbeing support or social events, we prioritise your success and comfort.

A diverse global community

Join a welcoming environment where cultures, ideas and perspectives come together. Our campuses are home to students from around the world, creating a rich, inclusive learning experience.

Top Melbourne attractions

Here are just a few of the amazing experiences you can have during your time in Melbourne.

 Brighton Bathing Boxes

 Federation Square

 Royal Exhibition Building at Carlton Gardens

 Phillip Island

 St Kilda Beach

Living in Melbourne

Discover your future in Australia's cultural capital

If you thrive on urban adventures and vibrant city life, Melbourne has your name on it. From riverside cycling tracks and coastal walking trails to lush gardens and rooftop hangouts, the city blends nature and lifestyle like nowhere else. Whether it's a weekend hike in the Dandenongs, a surf trip down the Great Ocean Road or just a tram ride to the beach, this city has an adventure for every day.

If food gets you excited, Melbourne is a culinary playground. We're home to award-winning coffee, multicultural street eats, buzzing food markets and fine-dining icons. With global flavours on every corner, your taste buds will never stop travelling even when you do.

Melbourne lives and breathes culture. From bold street art laneways to world-famous galleries, indie cinemas, comedy clubs and international festivals, there's always something happening. And when it comes to sport, this city doesn't hold back. Home to the Australian Open, the legendary Formula 1 Grand Prix and the heart-pounding energy of AFL, Melbourne's passion for performance on stage or on the field is second to none. Art and sport aren't just events here; they're a way of life, lived, shared and celebrated every day.

Even in the heart of the action, Melbourne offers room to breathe. Tree-lined streets, tranquil rivers and stunning bayside views give the city its rhythm. Whether you're unwinding in a park or picnicking by the Yarra, nature is always part of the experience.

Getting to campus

- 1 minute walk from Spencer St and Collins St

- 2 Minutes walk from Batman's Hill/Collins St
- 1 Minute walk from Southern Cross Station/ Spencer St
- 2 Minutes walk from Spencer St/Collins St
- 1 Minute walk from Southern Cross Station/ Collins St

- 1 minute walk from the Southern Cross Station

- Access to secure car parking lots nearby
- Free street parking in Melbourne CBD and Fitzroy
- 4 hour free parking between 7am and 6pm
- Unlimited parking all other times

Live, learn and thrive in Melbourne

Allowing international students who prefer to live in large metropolitan areas to study with us, our Melbourne Study Centre provides on-campus learning through face-to-face workshops and work integrated learning opportunities.

Melbourne's CBD is a hub for industry, culture and history. It's the perfect place to explore new ideas and push boundaries. With world-class infrastructure, endless opportunities for creativity, collaboration and growth, it's no surprise that Melbourne has become a top destination for business owners, entrepreneurs and innovators alike. From retail to hospitality to tech and beyond, Melbourne's CBD has something for everyone.

Melbourne is consistently ranked as one of the world's most liveable cities, and it's easy to see why. With a vibrant arts and music scene, diverse food culture, reliable public transport and a strong sense of community, the city offers a welcoming and exciting lifestyle for international students. From hidden laneways to riverside parks and cultural festivals, Melbourne offers a great study-life balance.

Melbourne Study Centre

Just steps from Southern Cross Station, the Melbourne Study Centre places you in the heart of the city's innovation and industry. With bright, open spaces, seamless transport access and a vibrant international student community, it is more than a campus; it is where your journey begins.

Located at 655 Collins Street in Docklands, the Melbourne Study Centre places you right in the heart of the action. Just a one-minute walk from Southern Cross Station, this landmark building, originally known as Media House, was designed to inspire. With its striking architecture, abundant natural light and thoughtfully designed open spaces, it creates an environment where ideas thrive.

Surrounded by some of the city's top businesses and creative minds, the Centre is a true reflection of Melbourne: cosmopolitan, connected and full of energy. With seamless access to public transport, a vibrant café culture on your doorstep and a community of like-minded international students, it's the ideal place to study, network and grow in one of the world's most liveable cities.

Top Sydney attractions

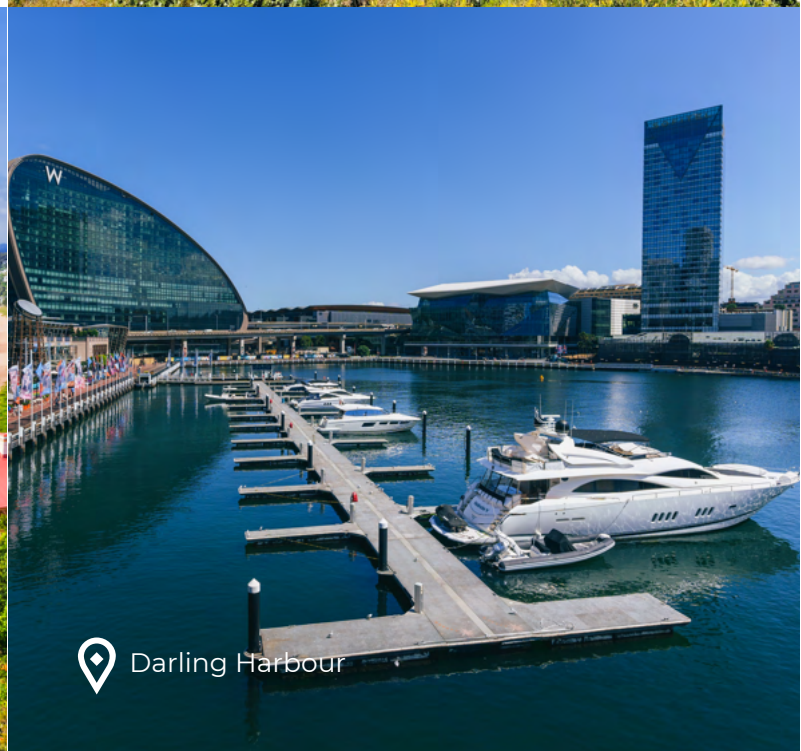

Here are just a few of the amazing experiences you can have during your time in Sydney.

 Bondi to Coogee Coastal Walk

 Barrenjoey Lighthouse and Palm Beach

 Darling Harbour

 Blue Mountains

 Sydney Opera House and Harbour Bridge

Living in Sydney

Build your future in Australia's global gateway

If you're an outdoorsy soul, Sydney is your dream city. From sunrise ocean swims to harbour kayaking, cliffside walks to national park hikes, this city is built for those who thrive outside. Whether you're soaking up coastal vibes at one of the many beaches, exploring hidden coves, or cycling through leafy suburbs, Sydney brings nature and adventure to your doorstep every single day.

If food fuels your curiosity, Sydney's dining scene will keep you exploring. The CBD buzzes with rooftop eateries and after-class ramen joints. Central and Darling Harbour are home to everything from hole-in-the-wall gems to waterfront fine dining. Diverse, delicious and constantly evolving, Sydney's food scene tells the story of a city shaped by the world.

Sydney is alive with culture and creativity. From iconic landmarks like the Opera House to grassroots theatre, indie film festivals, live gigs and vibrant First Nations art, the city pulses with stories. And when it comes to sport, the energy is electric. Cricket, football, surfing, and city-wide celebrations like Mardi Gras keep Sydney's calendar and streets buzzing all year.

Even in Australia's biggest city, nature is never far. With over 400 parks and reserves, sandstone cliffs, hidden bays and lush bushland, you'll always find a quiet moment to reset. Whether you're studying in the city or relaxing by the sea, Sydney's natural beauty is always part of the picture.

Getting to campus

- 3 minutes walk from the Railway Square bus stops

- 5 Minutes walk from Paddy's Markets stop
- 5 Minutes walk from Chinatown stop

- 7 minutes walk from the Central Station

- Access to secure car parking lots nearby

Live, learn and connect in Sydney

For international students who thrive in a dynamic metropolitan environment, our Ultimo Study Centre offers an engaging on-campus learning experience with face-to-face workshops and work-integrated learning opportunities.

Located in Sydney's education and innovation precinct, our Ultimo Study Centre places you in the heart of a district renowned for its entrepreneurial energy, cutting-edge industries, and vibrant student community. Just minutes from Sydney's CBD, Ultimo is home to global tech firms, creative enterprises, and industry disruptors, providing students with endless opportunities to connect, collaborate, and grow.

Sydney consistently ranks among the world's most desirable cities to live and study, offering a balance of lifestyle, opportunity and global energy. With its iconic harbour, vibrant multicultural neighbourhoods, and year-round sunshine, the city provides an inspiring backdrop for student life. Whether you're exploring new cultures or planning your future, Sydney offers experiences that enrich student life beyond the classroom.

Ultimo Study Centre

Steps away from Central Station, the Ultimo Study Centre places you in the heart of the city's innovation and industry. With bright, open spaces, seamless transport access and a vibrant international student community, it is more than a campus; it is where your journey begins.

Located in the iconic ABC Building in Ultimo, the Ultimo Study Centre places you at the heart of Sydney's higher education, technology and start-up precinct. Just a seven-minute walk from Central Station and within easy reach of Darling Harbour and Chinatown, this secure, modern campus blends connectivity, culture and convenience. With professional facilities, high-security access and bright, open spaces designed for focused learning, the Centre fosters ambition and innovation.

Ultimo is one of Sydney's most diverse and vibrant neighbourhoods, a true reflection of the city's multicultural spirit. Surrounded by creative industries, international students, higher education institutions and tech hubs, the Ultimo Study Centre offers an inspiring environment to study, collaborate and thrive in Australia's most global city.

Learn from industry professionals on site visits.

COURSE DETAILS

Bachelor of Business

CRICOS: 002346B Course Code: B3A

Duration: 3 years

Intake: Semester 1, Semester 2

📍 Hobart, Melbourne

"I have always dreamed of going to university abroad, and I am truly grateful to be living this dream here in Melbourne. My very first semester was definitely exciting as everything was new. New environment, new friends and a new chapter. UTAS has taught me a lot and helped me discover sides of me that I never knew. I love collaborating as a team and connecting with my classmates at workshops. Every day brings something different. I get to experience connecting with new people, sharing ideas, and develop teamwork. And that's what I love about UTAS. So far, I'm enjoying every moment of this journey and already can see myself develop in a lot of ways. Cannot wait for what's new ahead!"

Undram Enkhdelger (Mongolia)

Bachelor of Business student

Bachelor of Business

WHAT YOU CAN STUDY

Business Analytics

Learn to use data to make informed business decisions. Your studies will include building foundational programming skills for business analytics and developing knowledge on the business context and various applications of analytics in a range of business scenarios. Business analytics is an exciting and emerging discipline that combines technology-related skills with business acumen. The business analytics major will provide you with practical hands-on experience working with the latest technologies in data analytics, alongside key soft-skills. You will develop strengths in programming, data modelling, data analysis, data visualization and data storytelling within a business context. Focused on analysing data in a business context, the major will equip you with the skills needed to thrive in today's data-driven world.

Managing People and Organisations

All businesses, from large corporations to small start-ups, need to be managed well to succeed. People are a key driver of this success. In the Management of People and Organisations major, you'll learn about how the changing nature of how work influences people, how organisations behave, how we communicate with staff and stakeholders, the management of Human Resources, and how leaders can make change. With a range of work- integrated learning opportunities, you'll discover how to manage people and organisations in traditional, remote, and precarious contexts. You'll get hands on experience with business placements, industry guest lectures, real world business case studies, and activity based classes.

Marketing

Our marketing major is designed to equip you with the knowledge and skills necessary to thrive in today's dynamic business environment. You will delve into the fundamental concepts of marketing, exploring market research, consumer behaviour, branding, advertising, and strategic planning. By combining theoretical frameworks with practical applications in social media and digital marketing, we aim to empower you with the tools to excel in the ever-evolving digital landscape. Our experienced faculty and industry experts will guide you through real-world case studies and hands-on projects, providing the necessary skills and insights to thrive in marketing industry.

STUDY HIGHLIGHTS

Employers and recruiters seek graduates who stand out from other applicants. They want people who have practical experience, a positive attitude, and the ability to learn on the job.

In our business course, you'll gain a deep understanding of your future workplace. You'll do this through case studies, field work, simulated environments, and design thinking. This means you graduate with exactly the skills that industry is looking for.

CAREER OPPORTUNITIES

Our graduates have exceptional career outcomes. Eighty percent of our undergraduate business students find full-time employment within four months of graduating, which is above the national average.

You'll gain job-specific skills in your major area of study, so you're ready to enter the workforce. Transferable skills also set you up for long-term success. We embed the principles of entrepreneurship and innovation, and teach you critical thinking, strategic analysis, and evidence-based decision making.

Careers requiring business and management skills are growing fast, with employers demanding formal qualifications and advanced finance, economic and analytical skills. Here are some of the careers projected to grow into 2025:

9.4% Accountants, Auditors and Company Secretaries

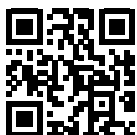

21.1% Advertising and Marketing Professionals

15.6% Human Resource Managers

12.0% Construction Managers

9.9% Business Administration Managers

Completing a Bachelor of Business will set you up with important skills for long term success. We embed the principles of entrepreneurship, and innovation, so you can adapt as the job market evolves. Throughout your studies you'll access top business knowledge and gain valuable industry insights. Gain lifelong skills that prepare you for a thriving career across an ever-shifting business environment.

Bachelor of Information and Communication Technology

INTERNATIONAL 2026

From the food on our plates to the money in our bank accounts, technology makes the world go round.

With technology now ubiquitous across every industry, our courses will prepare you for a future career in any location or sector that interests you. We offer a specialist degree with both a theoretical and practical focus, developing technological understanding and skills that are in high demand world-wide, plus project management and business soft skills that make you an ICT professional.

You will graduate with the skills and knowledge to grow into leadership positions, the drive to act on entrepreneurial ambition, and the confidence to pursue research and graduate studies.

Gain industry recognised certifications, providing skills that are in high demand by employers.

Learn from lecturers with a broad range of industry experience.

Learn and apply real world tools and technologies to solve ICT problems.

COURSE DETAILS

Bachelor of Information and Communication Technology

CRICOS: 079196G Course Code: P3T

Duration: 3 years

Intake: Semester 1, Semester 2

📍Hobart, Launceston, Melbourne, Ultimo (Sydney)

"Studying here not only enhance my technical skills but also inspired critical and creative thinking. I would say the most distinguishing aspect was the support system and lecturers who really care and staffs who are always available to help you academically or personally. I believe that while studying here I gained the knowledge and confidence to transition into the tech space with a vision."

Kripa Bam (Nepal)

Bachelor of Information and Communication Technology student

Bachelor of Information and Communication Technology

WHAT YOU CAN STUDY

The Bachelor of Information and Communication Technology offers a breadth of learning opportunities and experiences to build core, industry relevant skills and knowledge, including:

Application and Web Development

This major equips you with the essential expertise to create innovative and user-friendly applications and websites. Gain a deep understanding of programming languages, software development methodologies, and web design principles, enabling you to develop cutting-edge applications and visually appealing websites that cater to the needs of businesses and individuals alike. You'll have the opportunity to work with cutting edge mobile technology and cloud computing infrastructure, where you will work through all stages of the software development life cycle from inception, through to implementation and testing.

Artificial Intelligence

Artificial Intelligence (AI) is a rapidly growing area of business. It influences the way we live, communicate, and improve customer experiences. This major covers in-depth areas such as machine learning, digital disruption, data manipulation, and graphical display. It also integrates core business principles to identify and develop ICT-based solutions for a wide variety of organisations. In this major, you will be exposed to state-of-the-art technology as you explore and gain practical experience across numerous AI subfields. This includes working with cutting edge Internet of Things (IoT) devices, using AI analyse the generated data, and hearing from industry guest speakers.

STUDY HIGHLIGHTS

Industry recognised certification options embedded within select BICT units that provide students with opportunities to pursue professional industry certification as a supplement to their degree studies.

CAREER OPPORTUNITIES

Whether it's designing apps or websites, running virtual reality tours, building the latest gaming sensation, or working at a bank leading advancement in cyber security, a career in ICT will set you up for life.

Graduates often enter technical positions, such as software programmer, network administrator, systems or business analyst, and web design/development. These allow you to apply your skills and knowledge while building on the industry experience already gained from your time studying with us.

Technical roles progress to management and leadership positions, typically with 3-5 years' experience, setting you up in a career for life that goes wherever you want it to. These include project management, business analyst, testing/network/systems manager, database administrator, security specialist, and much more.

With ICT a core element of every industry around the world, you can take the skills, knowledge, and confidence from this degree anywhere your interests take you.

The Bachelor of Information and Communication Technology (BICT) provides you with the skills to compete for employment in the ICT industry globally, and the ability to stand out in the constantly changing technology landscape.

We offer a specialist degree with both a theoretical and practical focus, developing technological understanding and skills that are in high demand world-wide, plus project management and business soft skills that make you an ICT professional.

*Department of Employment, Skills, Small and Family Business five year projections from November 2020 to November 2025

Master of Health Service Management

INTERNATIONAL 2026

The demand for highly skilled and qualified health managers is significant. Changes in Healthcare move rapidly with advances in technology, clinical care modalities and management of quality, safe, and affordable health care. We face challenges of changing population demographics, natural disasters, chronic disease, endemic, epidemic and pandemic illness, all within the highly political landscape of healthcare.

The Master of Health Service Management will prepare you for the fast paced and challenging environment of management in the Health and Social Sectors. We draw on industry expertise from across the nation to deliver practical learning that prepares graduates to be emotionally intelligent, resilient, and competent, for evidence-informed decision making in health leadership, management and research.

We have partnered with Australia's health services to deliver an important element of people-centred leadership and management development, adding weight to their workforce development processes. We support these efforts by offering outstanding postgraduate courses designed to fit into busy lives.

COURSE DETAILS

Master of Health Service Management

CRICOS: 114382M Course Code: C7U

Duration: 2 years

Intake: Semester 1, Semester 2

📍 Melbourne, Ultimo (Sydney)

"The university also cares a lot about your future, with lots of resources like internships, career talks, and guidance. I really love studying here and would definitely recommend it. The location is perfect too – right in the heart of Sydney with easy transport and lots of landmarks nearby.

This course has not only expanded my knowledge but also given me confidence and practical skills for my career. I feel really lucky to be here and hope more people get to enjoy this kind of learning experience."

Siyuan Wang (China)

Master of Health Service Management student

Master of Health Service Management

Intensive masterclasses are taught by current, senior health sector executives.

We enable you to build networks with colleagues and peers across the health industry.

We're highly connected to the health industry and bring theory to life with case studies.

STUDY HIGHLIGHTS

The course is designed to provide current and future health and social care professionals with detailed training, focused on issues of contemporary health services management practice.

As a graduate, you will be able to demonstrate people-centred leadership, meet workforce demands both now and in the future, and perform independently in the health and social care systems.

COURSE SPECIALISATIONS

- Digital Health: Develops skills and knowledge of digital health, examining health information systems for their capacity and efficiency to utilise information for delivering high quality, safe, and efficient care.
- Integrated Care: Develops pragmatic skills for integrated care, including management challenges with providing person-centred, coordinated, and continuity of care in partnership with the community.

CAREER OPPORTUNITIES

With our Health Service Management course, you'll gain the skills to take on leadership roles in one of Australia's biggest and fastest-growing sectors. Healthcare is expected to grow by 15.8% by 2026*, creating thousands of new job opportunities in hospitals, clinics, and community health organisations.

This course sets you up for success in roles like health administration, operations management, and policy advising, where you can lead and make a difference.

*Jobs and Skills Australia, 2023

Getting started at uni

We'll prepare you to succeed

Before you travel to Australia to study with us, we recommend you read the following list of tips. We'll help make your transition smoother with pre-departure support, budgeting advice, information on preparing to study, and fun social events.

Pre-departure and arrival

Australia is a safe and relaxing place to live. Still, leaving home to study in a new country can be as daunting as it is exciting.

That's why we offer a range of programs and services to help you transition to student life in Sydney or Melbourne.

Managing your money

Understanding of the costs of living in Australia can make your study experience more enjoyable. We encourage all our students to set a realistic budget before travelling.

Study-related costs

- Study fees are as per course
- Additional study costs

All incoming students must have sufficient funds to cover the cost of:

- Accommodation
- Flights
- General cost of living
- Student visa application fee
- Overseas Student Health Cover (OSHC)

All students arriving on a student visa in Australia must have OSHC. The University of Tasmania provides cover through Medibank Private. This will cover the full length of your student visa. The current rates for OSHC will be included in your Letter of Offer.

Living Expenses

Knowing the average cost of living in Australia is essential for effective financial planning. Developed by Study Australia, the Cost of Living Calculator helps you assess your spending habits and offers a general estimate of potential expenses while living in Australia. The QR code is an official guide to living costs for international students living in Sydney or Melbourne (in Australian dollars). Of course, these will vary depending on your preferred standard of living and where you choose to live.

Preparing for study

Enrolment sessions

Our enrolment sessions are a great way to prepare for university. They help you understand the administrative parts of studying, including enrolling in units, finding your timetable, and learning about the online systems you'll use.

UniStart

UniStart is an online program that helps you pick up the skills to succeed at university. These skills include critical thinking, research, and assignment writing. We'll also teach you to get more out of lectures, tutorials, and online learning.

Find out more at utas.edu.au/starting-uni

Orientation

Orientation is an important part of your uni journey. You'll connect with other students, explore your new learning environments, and learn about all the support services available to you.

Before semester starts, you can take part in a variety of events, activities, and information sessions to get you started.

How to apply

1. Find a course

View our courses online utas.edu.au/melbourne and utas.edu.au/ultimo

For information or advice, please call
+61 3 7035 5300 (Melbourne),
+61 2 8766 3550 (Sydney/Ultimo) or email
applyutas@eca.edu.au

3. Lodge your application

- (a) Apply online via our [international admission portal](#).
- (b) Apply through an authorised University of Tasmania agent.

IMPORTANT: If you, or your agent, submits an application without all the documents then there may be delays to the processing of your application. This includes requests and supporting documentation for credit/advanced standing.

2. Prepare your documents

Prepare electronic copies of the documents you need to complete your application.

These may include:

- evidence of your English Language proficiency (e.g. IELTS or TOEFL)
- evidence of your academic qualifications (including English translations), and
- evidence of your previous studies if you are applying for recognition of prior learning including official course and unit outlines.

All the documents provided must be the original document or a certified copy.

Delays in processing times may be affected if all documents are not provided on initial application.

4. Apply for a scholarship

We have a number of scholarships specifically designed for international students. Most of these are assessed at the time of application for your degree program but some require a formal scholarship application.

For more information including scholarship closing dates, please visit utas.edu.au/international-scholarships

5. Accept your offer and enrol

On receipt of your Letter of Offer, please follow the instructions outlining how to accept.

Once you have accepted your place, you'll need to enrol in your course units.

Are you eligible for advanced standing?

If you have previously studied, you may be eligible for advanced standing. If you are eligible for advanced standing, you may not have to complete all of the subjects listed in your course and you could graduate sooner.

You can apply for advanced standing at the same time as applying for your course.

For more information, please visit utas.edu.au/rpl
